

I don't understand what the issue is. The people who do not want to receive calls from telemarketers every night shouldn't have to. Why then is there a chance a banking group in Washington DC could change a law and allow telemarketers to annoy the hell out of me again. What is the name of this banking group and what is their phone number? I would like to get this info and pass it along to as many people as possible. Then have everyone call this banking group daily.
